IRA Distribution Request

AMERICAN EXPRESS NATIONAL BANK, MEMBER FDIC

WHAT YOU NEED TO KNOW

As of October 2, 2024, American Express National Bank (AENB) discontinued offering Traditional and Roth IRA High Yield Savings Accounts (HYSA) and IRA Certificate of Deposit (CD) Accounts. All existing IRA accounts must be closed by November 17, 2025.

This form can be used to request a distribution from your Traditional or Roth IRA. Depending on your personal tax circumstances, there may be federal and/or state tax implications on distributions.

Please note: If funds will be transferred to an external financial institution as a non-reportable IRA-to-IRA bank transfer, please check with that institution for their requirements.

We recommend that you consult your financial or tax advisor before closing or taking distributions from your Traditional or Roth IRA.

Please review other forms on our website (go.amex/savingsforms) for specific IRA distributions and withdrawals such as:

- [IRA Return of Excess Contribution](#)
- [Authorization for account closure](#)

**Withholding Certificate for
IRA Distributions**

OMB No. 1545-0074

2025

General Instructions

Purpose of form. Complete this form to have the payer withhold the correct amount of federal income tax from your nonperiodic payment from an individual retirement arrangement (IRA). Don't use Form W-4R for periodic payments (payments made in installments at regular intervals over a period of more than 1 year) from an IRA annuity. Instead, use Form W-4P, *Withholding Certificate for Periodic Pension or Annuity Payments*. For more information on withholding, see Pub. 505, *Tax Withholding and Estimated Tax*.

Caution: If you have too little tax withheld, you will generally owe tax when you file your tax return and may owe a penalty unless you make timely payments of estimated tax. If too much tax is withheld, you will generally be due a refund when you file your tax return. Your withholding choice (or an election not to have withholding on a nonperiodic payment) will generally apply to any future payment from the same IRA. Submit a new form if you want to change your election.

Nonperiodic payments—10% withholding. Your payer must withhold at a default 10% rate from the taxable amount of nonperiodic payments unless you enter a different rate in the Withholding Election or Change of Election section on this form. Distributions from an IRA that are payable on demand are treated as nonperiodic payments. Note that the default rate of withholding may not be appropriate for your tax situation. You may choose to have no federal income tax withheld by entering "-0-" in the Withholding Election or Change of Election section on this form. See the specific instructions below for more information. Generally, you are not permitted to elect to have federal income tax withheld at a rate of less than 10% (including "-0-") on any payments to be delivered outside the United States and its territories.

Note: If you don't give this form to your payer, you don't provide an SSN, or the IRS notifies the payer that you gave an incorrect SSN, then the payer must withhold 10% of the payment for federal income tax and can't honor requests to have a lower (or no) amount withheld. Generally, for payments that began before 2025, your current withholding election (or your default rate) remains in effect unless you submit a new form.

Payments to nonresident aliens and foreign estates. Do not use Form W-4R. See Pub. 515, *Withholding of Tax on Nonresident Aliens and Foreign Entities*, and Pub. 519, *U.S. Tax Guide for Aliens*, for more information.

Specific Instructions

For an estate, enter the estate's employer identification number (EIN) in the area reserved for "Social security number."

More withholding. If you want more than the default rate withheld from your payment, you may enter a higher rate on in the Withholding Election or Change of Election section on this form.

Less withholding (nonperiodic payments only). If permitted,

you may enter a lower rate (including "-0-") in the Withholding Election or Change of Election section on this form if you want less than the 10% default rate withheld from your payment. If you have already paid, or plan to pay, your tax on this payment through other withholding or estimated tax payments, you may want to enter "-0-".

Suggestion for determining withholding. Consider using the Marginal Rate Tables on page 6 to help you select the appropriate withholding rate for this payment or distribution. The tables are most accurate if the appropriate amount of tax on all other sources of income, deductions, and credits has been paid through other withholding or estimated tax payments. If the appropriate amount of tax on those sources of income has not been paid through other withholding or estimated tax payments, you can pay that tax through withholding on this payment by entering a rate that is greater than the rate in the Marginal Rate Tables.

The marginal tax rate is the rate of tax on each additional dollar of income you receive above a particular amount of income. You can use the table for your filing status as a guide to find a rate of withholding for amounts above the total income level in the table.

To determine the appropriate rate of withholding from the table, do the following. Step 1: Find the rate that corresponds with your total income not including the payment. Step 2: Add your total income and the taxable amount of the payment and find the corresponding rate.

If these two rates are the same, enter that rate in the Withholding Election or Change of Election section on this form. (See Example 1 below.)

If the two rates differ, multiply (a) the amount in the lower rate bracket by the rate for that bracket, and (b) the amount in the higher rate bracket by the rate for that bracket. Add these two numbers; this is the expected tax for this payment. To get the rate to have withheld, divide this amount by the taxable amount of the payment. Round up to the next whole number and enter that rate in the Withholding Election or Change of Election section on this form. (See Example 2 below.)

If you prefer a simpler approach (but one that may lead to overwithholding), find the rate that corresponds to your total income including the payment and enter that rate in the Withholding Election or Change of Election section on this form.

Examples. Assume the following facts for Examples 1 and 2. Your filing status is single. You expect the taxable amount of your payment to be \$20,000. Appropriate amounts have been withheld for all other sources of income and any deductions or credits.

Example 1. You expect your total income to be \$65,000 without the payment. Step 1: Because your total income without the payment, \$65,000, is greater than \$63,475 but less than \$118,350, the corresponding rate is 22%. Step 2: Because your

total income with the payment, \$85,000, is greater than \$63,475 but less than \$118,350, the corresponding rate is 22%. Because these two rates are the same, enter "22" in the Withholding Election or Change of Election section on this form.

Example 2. You expect your total income to be \$61,000 without the payment. Step 1: Because your total income without the payment, \$61,000, is greater than \$26,925 but less than \$63,475, the corresponding rate is 12%. Step 2: Because your total income with the payment, \$81,000, is greater than \$63,475 but less than \$118,350, the corresponding rate is 22%. The two rates differ. \$2,475 of the \$20,000 payment is in the lower bracket (\$63,475 less your total income of \$61,000 without the payment), and \$17,525 is in the higher bracket (\$20,000 less the \$2,475 that is in the lower bracket). Multiply \$2,475 by 12% to get \$297. Multiply \$17,525 by 22% to get \$3,856. The sum of these two amounts is \$4,153. This is the estimated tax on your payment. This amount corresponds to 21% of the \$20,000 payment (\$4,153 divided by \$20,000). Enter "21" in the Withholding Election or Change of Election section on this form.
